

KPLMEX New Features

Following are some of the major new features for
KP Learner Manager Enterprise Edition X.

Redemption Codes:

- You can now nominate for whom each redeem code is for and it is recorded.

| | |
|-----------------------------------|------------------|
| How Many Codes: | 1 |
| For Whom: | |
| Length of Subscription (in days): | 1800 |
| Points: | 0 |
| Default Department: | None |
| Expiry of Codes: | February 19 2011 |

[Create...](#) [Show Current Redeem Codes...](#)

- You can send an email automatically with the code(s).

| | |
|----------|---|
| Send to: | Dave |
| CC to: | david.webster@gmail.com |
| Subject: | Your Redeem Code for Learning and Using KnowledgePresenter v7 Courseware. |
| Content: | <p>Dear X,</p> <p>Following is your redeem code for Learning and Using KnowledgePresenter v7 Courseware.</p> <p>To redeem this code and create your account, go to http://www.knowledgepresenter.com/kpuniversity/v7/courses//index.html?loginmethod=createaccount, enter your details, including the redeem code below. This redeem code can only be used once.</p> <p><I>75981185-2045525248-1572514432</I></p> |

[Send Email...](#)

- You can search for a specific redeem code.

KPLMEX New Features

Show All Codes...
Show Redeemed Codes...
Show Available Redeemed Codes...

- Department filter works for redeem code reports.

Filtered by Department: Win7
Showing Only Available Redeem Codes:

KPLMEX New Features

| | | |
|------------------|----|-------|
| 14 November 2009 | 25 | 2.51% |
| 15 November 2009 | 23 | 2.31% |
| 16 November 2009 | 62 | 6.22% |
| 17 November 2009 | 83 | 8.33% |
| 18 November 2009 | 30 | 3.01% |
| 19 November 2009 | 8 | 0.8% |
| 20 November 2009 | 9 | 0.9% |

- Times report (most common times lessons are run).

- All new reports contain graphs as well.

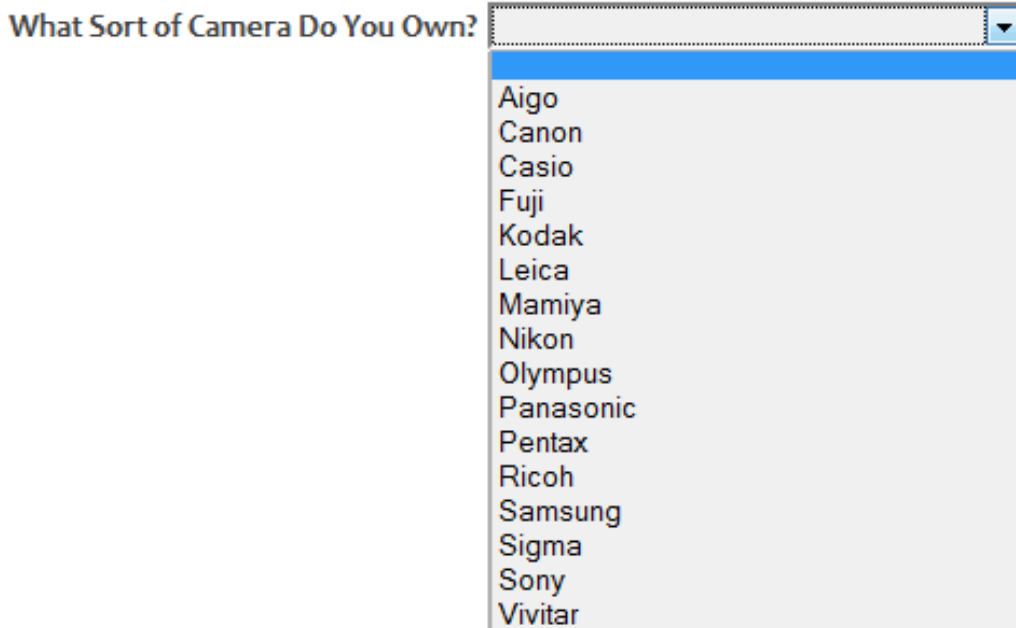

Custom Database Fields:

- Up to 10 custom fields can now be added.
- All custom fields can be set to:
 - be visible or not
 - be compulsory or not

KPLMEX New Features

- be read only or not
- accept a list of items (appears to the user as a drop down list)

- customfield1 can be set to be unique

Departments:

- Any user can be a part of up to 4 different departments.

| | |
|----------------------------|------------|
| Department: | IT |
| Available Departments: | IT ▼ |
| Department: (2) | PhotoIntro |
| Available Departments: (2) | ELearn ▼ |
| Department: (3) | IT |
| Available Departments: (3) | IT ▼ |
| Department: (4) | Win7 |
| Available Departments: (4) | Win7 ▼ |

- Any department can be set up with sub departments within it.

| Department | Logo | Startup URL | Maximum Number | Current Number | Show List | Remove | Edit Course Access | Make Default Department | Make Sub Department | Make Master | Sub Departments | Update |
|------------|------|-------------|----------------|----------------|-----------|--|--------------------|--------------------------|-------------------------------------|-------------|-----------------------|-----------|
| ELearn | | | 100 | 68 | List... | Only empty departments can be removed. | Edit... | <input type="checkbox"/> | <input type="checkbox"/> | | IT, Win7 Select... | Update... |
| IT | | | 9999999 | 0 | List... | Remove... | Edit... | <input type="checkbox"/> | <input checked="" type="checkbox"/> | Set... | None Select... | Update... |
| Win7 | | | 9999999 | 26 | List... | Only empty departments can be removed. | Edit... | <input type="checkbox"/> | <input checked="" type="checkbox"/> | Set... | None Select... | Update... |

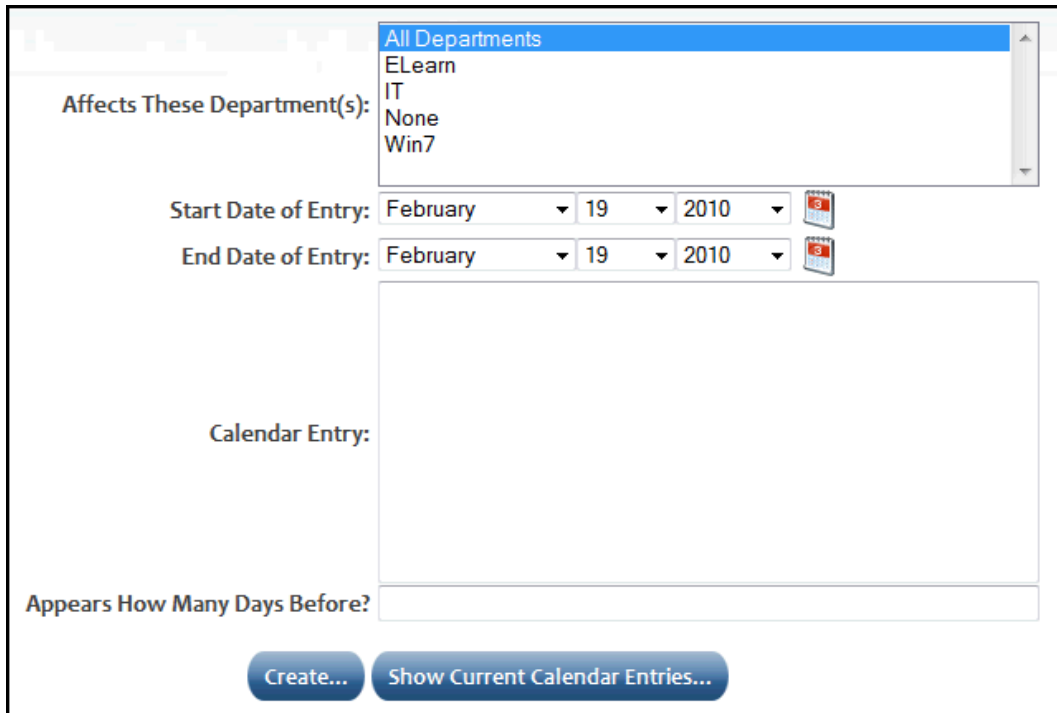

- When a subadministrator is given authority over a master department, they have authority over all of its sub departments.

KPLMEX New Features

- When a user is in a sub department, they get access to the courses assigned to that department, and the master department above it.

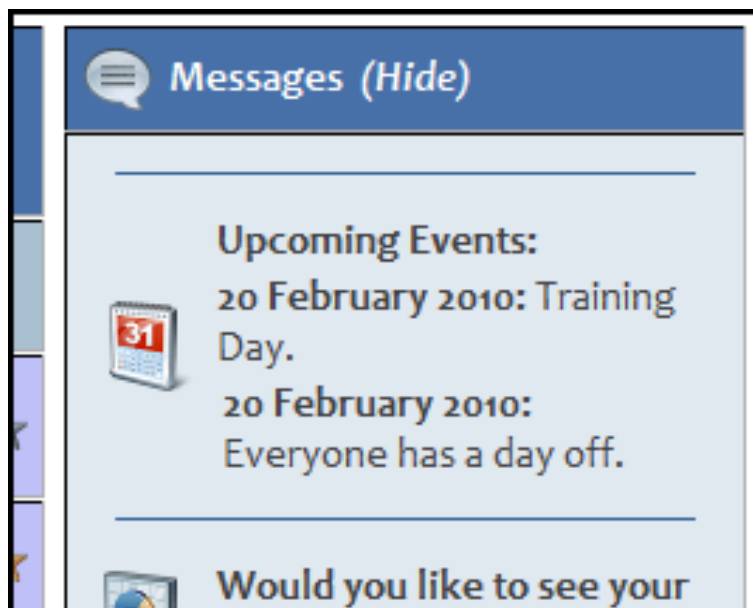

Calendar:

- You can create calendar entries that include affected departments, dates active, dates to warn before, etc.

The screenshot shows a web form for creating a calendar entry. It includes a dropdown menu for 'Affects These Department(s):' with options: All Departments, ELearn, IT, None, and Win7. Below this are two date pickers for 'Start Date of Entry' and 'End Date of Entry', both set to February 19, 2010. There is a large text area for 'Calendar Entry:' and a text input field for 'Appears How Many Days Before?'. At the bottom are two buttons: 'Create...' and 'Show Current Calendar Entries...'.

- Calendar entries appear in the courses and course page for each user.

- View all existing calendar entries

KPLMEX New Features

| ID | Date Created | Administrator ID | Department(s) | Message | Date Start | Date End | Warn Days Before | Edit |
|----|------------------|------------------|---------------|-------------------------|------------------|------------------|------------------|-------------------------|
| 2 | 19 February 2010 | 1 | all | Everyone has a day off. | 20 February 2010 | 20 February 2010 | 7 | Edit... |
| 1 | 19 February 2010 | 1 | all | Training Day. | 20 February 2010 | 20 February 2010 | 7 | Edit... |

Miscellaneous:

- Calendar pop-up added everywhere a date is needed (no more entering a date, or selecting a date from drop down lists, although this is also available in some places).

The screenshot shows a date selection form. The 'Date In:' field is set to February 19, 2010. The 'Date Out:' field is set to January. A calendar for February 2010 is displayed, with the 19th highlighted in red. A 'Submit...' button is visible.

- Accounts can now be opted into (require answering an email to generate the account).
- Rearranged administrator edit pages - all left aligned.

The screenshot shows an email configuration form. It includes five checkboxes for sending emails: "Send Email to Me When User Completes a Lesson", "Send Email to Me When User Completes a Course", "Send Email to Me When User Completes a 'Pending' Lesson", "Send Email to Me When User Leaves a Comment", and "Send Email to Users When First Registered". Below these is a text area for the "Email Message" with a sample message: "Welcome, \$username\$, to your online KnowledgePresenter and e-learning experience." A "Submit..." button is at the bottom.

- Emails now formatted better.
- Optionally a unique identifier can be added to a lesson command string when the lesson is launched from the LMS. This is designed to help prevent any caching issues that may occur when loading new versions of older lessons.
- Dates everywhere are now long, and consistently, formatted to save confusion between different country date formats.

KPLMEX New Features

| Subscription Expiry |
|---------------------|
| 03 May 2010 |
| 24 April 2014 |
| 24 April 2014 |
| 20 August 2014 |
| 02 April 2014 |
| 11 September 2014 |
| 26 March 2014 |

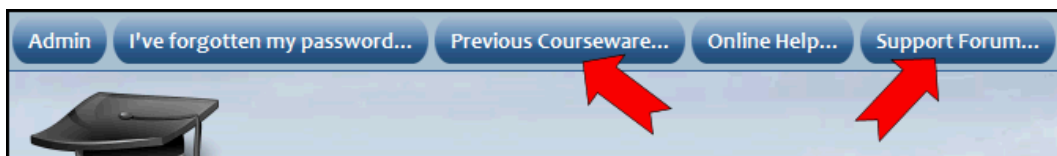

- Edit strings (**Imsdata.js**) now vastly improved, directly in the interface.

Edit Configuration

The file below represents the main settings file, **Imsdata.js**. This allows you to make changes related to how certain things appear, or operate. This can only be edited if permissions are set correctly on your server. This is an advanced setting, and should be used with caution.

- Up to 10 custom buttons, 10 custom admin buttons, and 10 buttons specific to a course.

- When access is given to a new course manually, course account is extended if required.
- Optionally add/remove weekends from date reports.

KPLMEX New Features

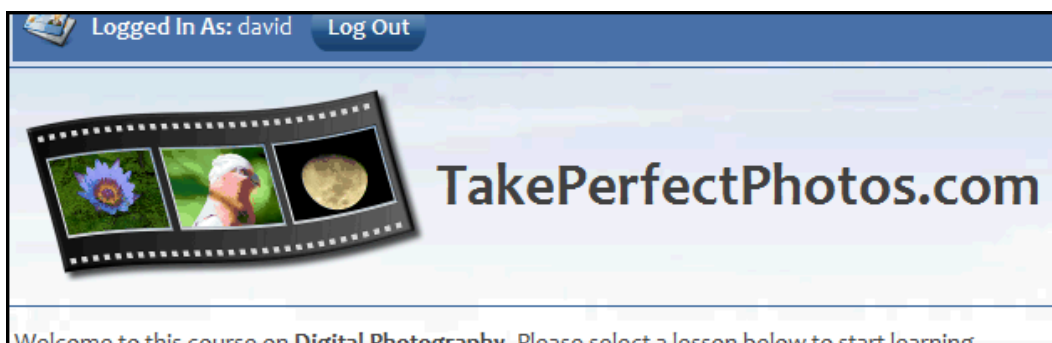

- **Live Feed** button added.
- **Collapse and Expand Course Lists.** Many reports now allow you to hide and show results from certain courses to make the report better to print and easier to understand.

| Course: ▶ E-learning and KnowledgePresenter (Show) | | | | |
|--|---------------|----------------|---|---------------|

Running a Course

- Custom header graphic for each course available.

- You can now set a minimum time that must be achieved in order to obtain a certificate.
- You can add a blog link next to each individual lesson.

KPLMEX New Features

- Date course actually completed now stored

Lessons

- Time is now recorded for each lesson.

Course: [E-learning Essentials](#) (Hide)

| Lesson Name | Lesson Status | Score | Comment to User | Date | Time | T |
|--|---------------|----------------|--|------------------|----------|---|
| Introduction to Learning Objects | incomplete | Not Applicable | <input type="text"/> <input type="button" value="Update..."/> | 19 February 2010 | 21:30:04 | 1 |

- Notes, as well as comments are now available to be added to all lessons. (Requires KPX to allow the notes feature to be fully implemented).
- Notes and comments are visible to the user before and after they enter that lesson.
- Any individual lessons can be set up so that results are not visible for that lesson when displayed to the user.
- Use a specific URL to launch a single course directly, rather than user having to look through list.
- Almost all options now optional on course list page.

KPLMEX New Features

 **Sales Course**

 This course is designed for those users in the Sales department.

 **Your Status:** 90% of lessons have been attempted.

 You last ran a lesson from this course on: 19 August 2009

 This course expires on: 14 March 2010

Launch Course...
More Information...
Blog...

- Lessons can be set up so that they only become available a set number of days after the previous course has been completed or passed.

To run the lesson you have selected (**Keep the Camera Still**), you must first have completed, or passed the lesson immediately before this one (**Why Not Use Automatic Settings?**). This lesson has been attempted, but not yet completed.

Additionally, this lesson (**Keep the Camera Still**) will only become available 1 day(s) after you complete the previous lesson (**Why Not Use Automatic Settings?**).

Close

Archives

- Lessons, or a group of lessons can now be archived. This means a user can take a lesson as though for the first time, but results from last time are still in the database.

| | | | | | | | | |
|---|------------|---|------------------|----------------|---|---------------|-------|---|
| 1.1 - Introduction to Learning Objects Hide Archived Results | 0000:00:13 |  | 19 February 2010 | Not applicable | 1 | None recorded | ★★★★★ | Blog... |
|  1.1 - Introduction to Learning Objects (Archived) | 0000:00:14 |  | 08 November 2009 | Not applicable | 5 | None recorded | - | - |

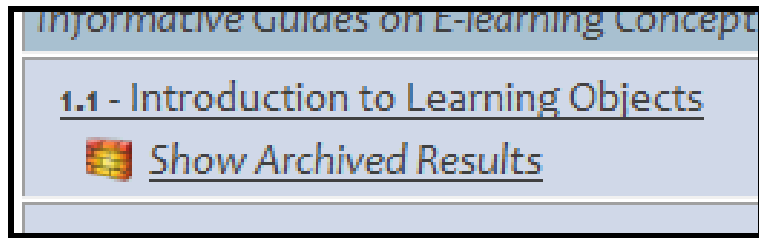

- You can elect, on a course by courses basis, to automatically determine whether previous lessons are automatically archived each time the lesson is run again.

Store Archived Results.

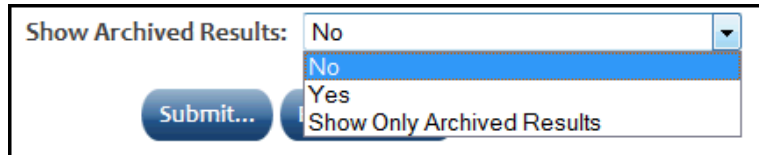

Show Archived Results to User.

- You can elect, on a course by course basis, whether the user can view lesson results that have been archived.

KPLMEX New Features

- Archived results can be removed via filtering, included, or only archived results shown.

Course Creator

- Course Creator now can be sized to full screen.
