

Now in Version 7!

Develop your own interactive e-learning, assessments and testing *without programming* - professionally, easily, and quickly.

KnowledgePresenter® v7 Professional is a powerful set of tools that assist you to create high quality interactive e-learning and multimedia presentations—for online or offline delivery.

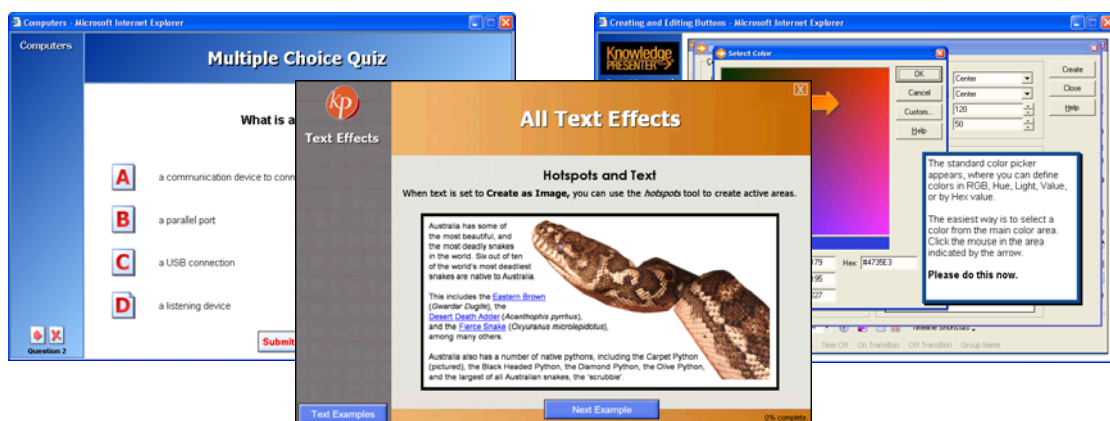

Create fully interactive SCORM compliant e-learning lessons, from software simulations, multiple choice quizzes, through to fully synchronized multimedia presentations, with no programming, and no plugins required.

Lessons or presentations play back natively in a browser. The award-winning KnowledgePresenter® Professional also includes the **KP-Learner Manager™** System (standard edition), **KP-Simulator™**, **KP-DocumentaryMaker™**, **KP-Q™**, and **KP-Capture™**.

True cross platform authoring - lessons play back on Macs, PCs, and Unix platforms. (You can even convert to EXE files for local playback on Windows systems).

KnowledgePresenter® is the only e-learning solution that allows you to create:

- Interactive software simulations and demonstrations
- Multimedia presentations and learning, including handouts
- Assessments and multiple choice quizzes
- Import, convert and make your PowerPoint presentations come to life
- Turn boring still images into compelling multimedia presentations
- Capture screen movies for training or demonstrations
- A complete end to end solution, including Learning Management System for recording and reviewing results

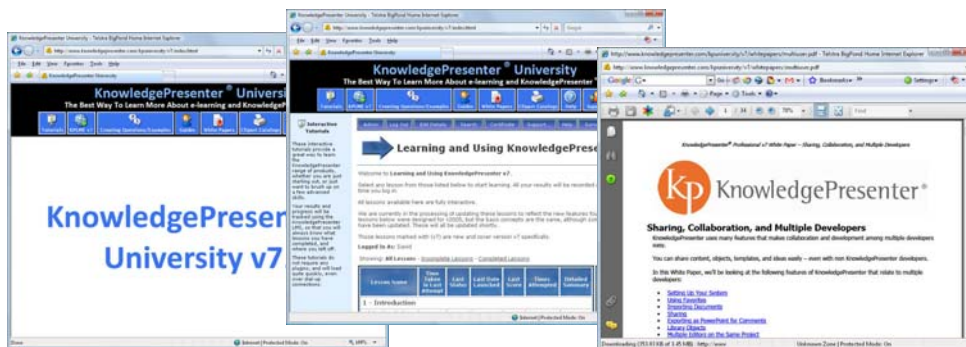

End-to-end e-learning—from authoring, to deployment in a learning management system.

Visit www.knowledgepresenter.com for more information, a 30 day trial, a complete range of demos, a complete interactive training program, webinars, and much, much more.

Need help getting started? Visit **KnowledgePresenter® University** (<http://www.knowledgepresenter.com/kpuniversity/v7>) to learn all about e-learning, and KnowledgePresenter®. Everything from the industry standards and terms (and what they mean), to e-learning best practice, to how to apply all this in KnowledgePresenter®. Choose from interactive training sessions, detailed and informative white papers, or audio-drive screen movies that illustrate exactly how to get things done.

If you decide to try a free 30-day trial download, we've a series of evaluation guides to help you get the most out of your trial.

While you're on our site, check out our other solutions for professional e-learning developers—like our **KP Learner Manager Enterprise Edition**, and our on-line quiz maker tool, **KP Q**.

System Requirements—Minimum
